

T-Mobile Established UX Styleguide

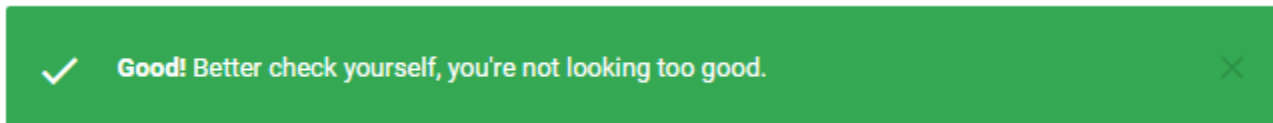

The following document lists out the established style of the current portals as of 7/21/17. The rules below **MUST** be followed in order to create a consistent product.

Document will also serve as a guide for QA to assure that the following elements meet style guidelines.

****NOTE:** The areas with a star: ★. Are guidelines that have been add to the CSS, therefore it's styling is already followed, all that is needed is to use the proper class when using the element.

- Back Button Consistency
- Button Spacing

Alerts & Notifications

- This same type of alert should be used for toasts.
 - **Note:** Toasts should be *no* longer than a one sentence message. Any longer and the message can be missed entirely by the user. (Do not extend the time of the toast)
 - Meters on toast should stop if mouse hovers over
 - Do not dismiss if clicked on, only when clicking on 'x' to close

Buttons

★ Default

- Text in Magenta (#E20074)
- Background in White (FFFFFF)
- All capital letters
- Always float **LEFT** on any modal or page when paired with a primary button

★ Primary

NEXT

- Text in White (#FFFFFF)
- Background in Magenta (#E20074)
- All capital letters
- Always float **RIGHT** on any modal or page when paired with a default button

★Secondary

BACK

- Text in grey (#404040)
- Background in grey (#EEEEEE)
- All capital letters

Accordions

PACKAGE 1

PACKAGE 1

PLAN Additional Line (even
more for Business)

DEVICE T-Mobile Samsung
Galaxy J7 Prime

LINES 4

FEATURES
(None
Selected)

> Additional Line (even more for Business) -
ENEHADDON + WRDLINBLB

Currently Active ● \$33.20

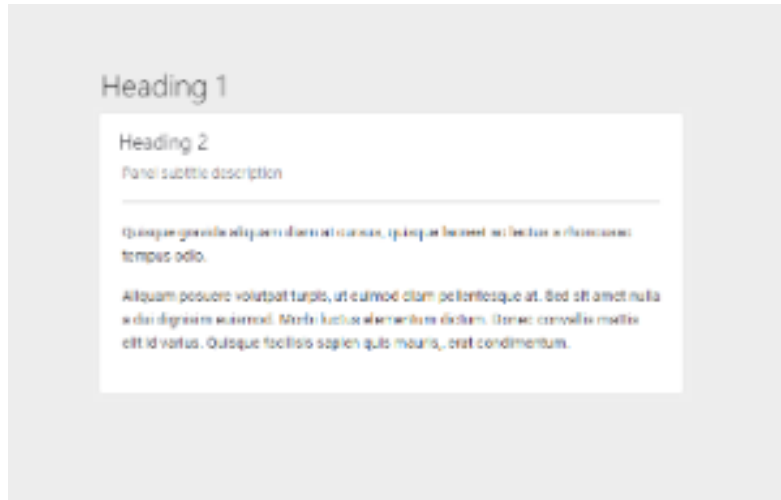

- Title highlights in Magenta when clicked on
- Selects the element upon first click
- Only opens if there is information to show

★Links

Order History →

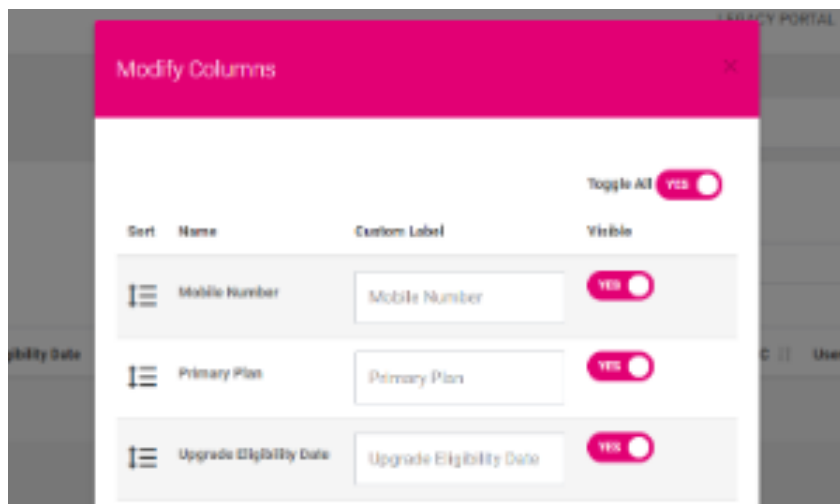

- All links must be in Magenta (#E20074)
- **Hover state:** Darker Magenta (#95004D)
- **Visited state:** Dark Magenta (#AF005A)

Panels

- Default panel used on most pages (unless specified otherwise on mock up)
- **Note:** Some mock ups may vary in heading placement. But this will be the standard for future implementations, and mock ups created from here on out.

Modals

- Use modals with a magenta header and white text header
- Match height and width to mock up provided if possible

Tabs

Default Tabs

Home Profile Messages

Top Tabs

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aliquam porta lacus ipsum, tempus consequat turpis auctor sit amet. Pellentesque porta mollis nisi, pulvinar convallis tellus tristique nec.

Nam aliquet consequat quam sit amet dignissim. Quisque vel massa est. Donec dictum nisl dolor, ac malesuada tellus efficitur non. Pellentesque pellentesque odio neque, eget imperdiet eros vehicula lacinia.

Input Fields

* First Name

* First Name

- When clicking on an input field, the field must high light in magenta.
- Whenever possible, use **input masks** (i.e. for phone numbers and dates)
- All required fields should include a magenta colored asterisk.
- Tabbing through the input fields in the forms **must** work.

Validation

Min check

☐ Option 1

☒ Option 2

☐ Option 3

You must select at least 2 choices.

- Any missed field upon submission should highlight and indicate to the user which field must be fixed
- **Note:** Use [Parsley JS](#) for validation, and the "required" class.
- Error message should look like the example above.

Check Boxes & Radio Buttons

Radio ☐ Option 1

☐ Option 2

☒ Option 3

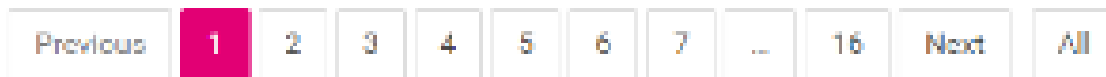

Checkbox ☒ Option 1

☐ Option 2

☐ Option 3

- Selection must be in magenta
- Orientation of options must follow mock up
- Label must always go on the right

Pagination

- Must go on **both top and bottom** of whatever page it is being displayed on.
- Upon hover, the text color should change to dark magenta (#95004D) and the background of the button should change to grey (#EEEEEE)

Drop Downs

- Text in drop downs should be in magenta and treated as links.
- **Note:** Some mock ups may vary in text color. But this will be the standard for future implementations, and mock ups created from here on out.

Tables

Striped Tables

Name	Date	Rate
Penelope Thornton	23/06/2016	60%
Justine Myranda	15/05/2016	23%
Benji Harper	10/03/2016	79%
Sherwood Clifford	18/01/2016	18%

- Use a striped table **only**.
- **Note:** Tables may vary on current portal. (i.e. ordering workflow table) Mock ups are dependent on how much information the customer wants presented on the table.
 - Default to this table unless specified in mock up.
- Check boxes, sorting and searching is dependent on customer request. Will be specified in mock up.

Color Palette

Primary Colors

Magenta, white and black are the primary colors

Darker Magenta - #95004D

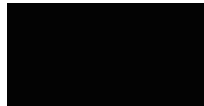

Dark Magenta - #AF005A

Magenta - #E20074

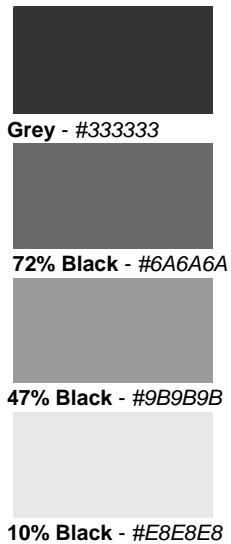

White - #FFFFFF

Black - #000000

Secondary Colors

Grey should be used as an accent color when needed for differentiation and added visual interest.

Error Messages

- Always show pop-message for every destructive action the user can potentially make. (i.e. "Are you sure you want to ... ?")
- Remind them *what* they need to be sure about.

Back Button Consistency

← BACK

[Page content goes here]

NEXT

- Back button will appear at **both top & bottom** of every page.
- **Note:** Mocks up may vary. But this will be the standard for future implementations, and mock ups created from here on out.

Button Spacing

Are you sure you would like to remove the **Task Order: 1111**?

This action can be undone on the **Task Order Management** page by filtering or "Removed" status.

NO

YES

- Our products must be compatible on different devices.
 - Mobile UI's are much smaller therefore they need larger spacing between buttons.
 - To make our UI compatible, all buttons **must** have a significant space between them. (Distance specified in mock up)
